

**INTERNATIONAL  
MINES RESCUE COMPETITION  
2022**

September 13-15, 2022

**High Angle Rope Rescue  
EXAMPLE SCORESHEET**

**The following are examples of performance checklists (scoresheets) with merit/penalty values (scoring points). This document is being provided to the teams in advance of the 2022 IMRC for training purposes. These rule interpretations were agreed upon by Simulation Lead Judges and Simulation Judges in advance of the event.**

**These provided interpretations of the rules and scoring examples are for Section 6, High Angle Rope Rescue Scenario/Simulation Rules**

**Not all scoring examples provided in this document will be used in the 2022 IMRC problem design.**

**Judges Instructions**

**Merit Point Scoring:** 0 = not done  
+1 = poor attempt  
+2 = needs improvement  
+3 = excellent meets all requirements

1. Every line must be scored.
2. A score of 0, 1 or 2 **must be explained** by the judges.
3. When a score of 3 is applied, comments are encouraged
4. If a team runs out of time a score of 0 will apply to remaining actions

**Rough Handling**

1. Rough handling demerits will be deducted from the total score
2. Judges can deduct 1 to 5 points per incident of rough handling of equipment
3. Rough handling demerits will have a maximum of 10 points
4. Rough handling deductions must be explained by the judges

**Team Safety:**

**If at any time the Simulation Lead Judge feels that a team member's safety may be compromised, the action will be stopped and re-direct negative (penalty) points will apply**
