

THERE WILL BE A 30 DAY FREE TRIAL FOR THE LIGHTS ON GAS MONITOR SIMULATOR: TO ACCESS THE FREE TRIAL FOLLOW THE INSTRUCTIONC BELOW

Quick Start Guide for the Gas Monitor Simulator

1. The Gas Monitor Simulator can be found on the Apple iTunes App Store by searching for "Gas Monitor Simulator" or at <https://itunes.apple.com/us/app/gas-monitor-simulator/id362628351?mt=8>
2. Get a demo code after downloading the app
3. Launch the app
4. Become a Trainer
5. Go to Settings
6. Scroll down to Authorize Device and select it
7. Look for the Device ID (four digits) and email it back to support@lightsonss.com
8. You will then get an email back with your demo code.

Prior to running any training events please make sure all devices are all charged and ready for use.

1. Take out the desired number of devices needed for training and turn them on. It will take about 30 seconds for each device to connect automatically to the wireless router. If they do not, select the Settings button on the device and pick the correct wireless router.
2. On your authorized trainers device, start the Gas Sim App
3. On the student devices, start the Gas Sim App
4. Start a training session of your choice. Please remember that a student cannot see your device if you have not initiated a training session by selecting a gas combo.
5. Once you have started the training session the students will then see your trainers name. Ask them to select you as a trainer.
6. You now should have students attached to the training session and you are now ready to start training.
7. Press the start button in the top right hand corner and you are now off and running.

IF YOU ENCOUNTER ANY ISSUES WITH THE FREE TRIAL PLEASE CONTACT JOHN HOLTAN AT 1-832-314-9474 OR EMAIL HIM AT john.holtan@lightsonss.com. The website is www.lightsonss.com and Facebook is https://www.facebook.com/lights_on_safety_solutions
