

## Team Technician at the 2020 IMRC

After much thought, deliberation and conversations it has been decided that the 2020 International Mines Rescue Competition Rules be amended to allow the Team Technician designated by a particular team to participate in the other simulations that are a part of the IMRC.

The Team Technician must be a part of the 10 person roster that is submitted by the Team and can participate in any simulation that the Teams desires. The Team Technician must be identified as such at the time of registration. Teams cannot add an additional person to the 10 person roster to serve as the Team Technician.

Teams may continue to **not** use the Team Technician in any other simulations if that is their desire but they must make the distinction at the time of registration.

If accepted by the IMRB and 2020 IMRC Committee this amendment can be added to the [www.imrc2020.com](http://www.imrc2020.com) website and the Teams already registered can be contacted and informed of the change
